Dublin & Macon Job Opportunities

FABRICATION TECHNICIAN

Our Fabricators have a highly-trained eye for quality, while delivering top quality products to our customers. They are responsible for adhering to a production schedule, ensuring that all parts are properly fitted, aligned and secured and ensuring that safety standards are always met. If you are highly motivated and are able to work under tight deadlines in a fast-agile work environment then this is the position for you.

MATERIAL HANDLER

Our Material Handlers are an important part of the production team. They support our different locations and create smooth sailing for the team, while maintaining production and distribution of our product to meet our customer needs.
