The Dublin-Laurens County Development Authority is here to assist local companies with expansion and growth. With the wide variety of manufacturing and distribution industries located in the Dublin-Laurens County area, we know the importance of working with our existing industries to ensure they continue to succeed and retain high-skilled employees. The staff with the Development Authority visits with each industry one-on-one throughout the year to discuss their current business state and to learn the challenges they may be facing. We act as a conduit between the company and state and local resources to help your business grow!
